

NOTICE OF OPPORTUNITY FOR PUBLIC COMMENT for INTERSTATE WASTE REMOVAL PARKLANDS

DRAFT TITLE V OPERATING PERMIT SIGNIFICANT MODIFICATION

Program Interest (PI): 46099 / Permit Activity Number: BOP130001

The New Jersey State Department of Environmental Protection (NJDEP) is seeking public comment on its intent to approve an air pollution control Operating Permit Significant Modification for this facility pursuant to the provisions of Title V of the Federal Clean Air Act, the federal rules promulgated at 40 CFR 70, and the state regulations promulgated at N.J.A.C. 7:27-22.

I. FACILITY INFORMATION

Interstate Waste Removal Parklands is located at 1070 Route 206, Bordentown, NJ 08505, Burlington County and consists of a closed Municipal Solid Waste Landfill. The facility is owned and is operated by Waste Management of New Jersey, Inc.

The facility is a non-major facility that does not emit any air pollutant above major facility thresholds.

This permit does not allow hazardous air pollutant to be emitted above the reporting threshold.

II. BACKGROUND AND HISTORY

The facility's current operating permit was approved on January 25, 2013. Please refer to the attached explanation sheet for the structure and configuration of conditions of approval, included in the Facility Specific Requirements section of this permit. This modification would allow the following change to the facility's approved operating permit:

This significant modification removes the 40 CFR 62 Subpart GGG (Federal Plan Requirements for Solid Waste Landfills) requirements from the permit. The requirements are being removed because the facility is not subject to them, as agreed upon by the USEPA Region 2, NJDEP, and the facility in correspondence from October 2013.

There are no proposed changes to air contaminant allowable emission rates.

III. EMISSION OFFSET REQUIREMENTS

This modification is not subject to Emission Offset requirements

IV. FACILITY'S COMPLIANCE STATUS

The Responsible Official at the facility has certified that the facility currently meets all applicable requirements of the Federal Clean Air Act and the New Jersey Air Pollution Control Act. Based on this certification, the Department's evaluation of the information included in the facility's application, and a review of the facility's compliance status, the Department has concluded that this air pollution control operating permit should be approved. Prior to the expiration of the Operating Permit's five-year term, the facility will be required to apply for a renewal, at which time the Department will evaluate the facility and issue a public notice with its findings.

V. PUBLIC COMMENTS AND CONTACT INFORMATION

This public notice, the statement of basis, and the draft permit have been posted at the Air Quality Permitting website: <http://www.state.nj.us/dep/aqpp/publicnotices.htm>. The draft permit is also available for inspection at NJDEP/Air Quality Permitting Program, 401 E State Street, Trenton, NJ 08625 and at the Central Regional Field Office located at 22 South Clinton Avenue, 4 Station Plaza – P.O.
